Instructor: Mr. Lewis Gillett

Introduction: Since its creation in the early 1990’s, the internet has become an essential tool and a core part of our society in general. Industry, education, entertainment and finance are all dependent on web based applications and communications. This course will consider the importance of the internet in today’s society and give students some tools to become more effective webmasters.

Units:

I. Technologies ‘on the web’
II. Elements of Web Site Design
III. Web Based Multimedia
IV. Web Server Management
V. Programming ‘on the web’
VI Issues and Opportunities

Evaluation: Assignments / Classwork 40%
Projects / Labs 40%
